Only \$20.00 to 'Frisco via the Burlington. A Marvelous Yankee Invention.

Among the innumerable exhibits in the Manufacturers building at the World's fair there was one of such unique design that, even in that wilderness of interesting things, it attracted much attention.

It consisted of two wax figures, the one a girl, sitting, and the other a man, standing upon a simple platform. The man was leaning toward the girl as though he were explaining to her the design of a small, crescent-shaped piece of rubber cloth which he held in his hand.

More lifelike figures than these were never seen in Mme. Tussaud's or any other exhibition of wax works in the world. Many people approached this group and looked into the man's face, wondering why he stood silent. When they discovered their error they bit their lips and moved away, only to return in a little while to see what those wax figures meant. The figure of the man bore the countenance of James H. Canfield, the inventor of the famous Canfield seamless dress shield.

The other represented one of the prettiest girls in Bridgeport, Conn.—an employee of the factory at which these shields are now made by the million—who he was instructing how to make the article.

The Canfield Seamless Dress Shield itself is too well known to need description. Of the steady growth and the present enormous business of the company that manufactures them, however, the public knows but little.

When the Canfield Rubber company was organized in 1882 its capital was \$10,000, and its plant consisted of one small building and a few machines. Today, although the capital has been increased only to \$250,000, with a surplus of another quarter of a million, the company manufactures over 4,000,000 pairs of dress shields every year, transacting an annual business of over \$1,000,000, and having head offices in New York, London and Paris.

Mr. Ratcliffe Hicks, the president of the company, is a man of remarkable business ability. His success is due, not more to the self-recommending article he set out to manufacture, than to his untiring and ingenious efforts to make every woman in the land give him a trial. In recognition of the appreciation of these women, which has built up the industry, Mr. Hicks has now announced a scheme by which a few of them will receive a token of the company's gratitude. To the three women who make the best guesses as to the number of shields sold, in the United States, 23, in Europe, and 34, in all the world, in 1893, he offers a free Cook excursion ticket to Europe and return. If they prefer the money, they will receive \$300, \$200 and \$500 respectively for the best guess in each of the three classes. All guesses must be mailed to 73 Warren street, New York, before April 1, 1894, and the prizes will be awarded on the 1st of May following. You can write for full particulars to its office in New York.

Nelson's Curious Calf. Lewis Nelson, a dairyman living on Washington hill, has a decided curiosity in the shape of a calf which was added to his herd one morning last week. The animal is just like any other young bovine in shape, but the hindquarters and the back half of its body is utterly devoid of hair and resembles the skin of a Mexican dog, while the front part of the beast is covered with a heavy growth of soft, fine wool, like a Cotswold sheep. The wool is white, long and very silky in appearance. The little creature has not only created a sensation among the animals in the dairyman's barn, but it has been visited by hundreds of the owner's friends and neighbors, who declare that the calf is the most wonderful thing they have ever seen.

Scientific men are racking their brains for some solution of this freak of nature. Museum managers are already negotiating for the animal in order to put it on exhibition.

Robbed a Peddler. A peddler was held up and robbed of \$1.45 near the corner of Fifth and Leavenworth streets yesterday forenoon. He stated his tale of woe to City Detectives Hayes and Hubben, and the officers went after the foot pads. The peddler went back to the scene of the robbery and told his friends that the officers were coming. The thieves got wind of the fact and made their escape, but as they are known to the police the men will be captured if they remain in the city.

Dow, saddlery and trunks, 215 South 16th. COMENIUS SCHOOL DEDICATED. Interesting Exercises Attended by Twelve Hundred Parents and Friends.

The formal dedication of the Comenius school at Fifteenth and William streets was an occasion of much interest to a large number yesterday afternoon. An interesting program had been arranged and a handsome oil portrait of the master of the key of all languages was presented to the school by Mr. Kemert in behalf of the Bohemian societies of this city.

The school succeeds the one which was formerly known as the Hartman school and a handsome sixteen-room brick building has taken the place of some small frame structures. The new school is named after John Anton Comenius, a Slavic educational reformer and philosopher, who was a Bohemian and taught at Lesna, Poland. He published "Janua Linguarum Reserata," which means the gates of languages unlocked. In 1642 this great educator was employed in reorganizing the Swedish schools. He afterward made his home at Amsterdam, and published the original child's picture book. His death occurred in November, 1671, and since then his memory has been preserved in educational institutions and Bohemian societies.

The naming of the school after this great Bohemian was in the future of a compliment to the many worthy Bohemian citizens of Omaha and they took an interesting part in the program arranged for the dedicatory exercises.

The new school is two stories high with a large basement, and the ground dimensions are 75 by 70 feet. There are sixteen large, airy and well-lighted rooms, surrounded with excellent sanitary conditions. Ellen M. White is the principal. She is assisted by a corps of well trained teachers. The following program was carried out:

Anthem.....School Song.....Cradle Song.....Norris Farmer and His Pigeons.....Taubert Miss Pamie Arnold. Dedication and Name of School Building.

Dr. T. Duray. Reception of Picture of Comenius.....Presentation of Picture of Comenius.....Mr. Kemert. Song—Fairlyland Waltz.....School National Air of Bohemia.....Bohemian Land Flag Received.....Major Clarkson America.....Bohemian Song—Edwin Rosewater, Judge Berka and Thomas Capek, who were down on the program for speeches, were detained by business affairs. The exercises were held in the main hall on the first floor, and it is estimated that 1,200 people were present. The whole building was decorated in an appropriate manner and the portrait of Comenius was given a conspicuous place. After the dedicatory services were over Contractor Frank Gooty presented with the school a handsome American flag, which was accepted in behalf of the school by Major T. S. Clarkson, who made a brief speech.

The singing of the couplet of the school was a surprise to the parents of the pupils, and was the subject of much favorable comment. After the program had been completed the visitors were shown through the building by members of the school board and the teachers.

Only \$20.00 to 'Frisco via the Burlington. Cahn and the Hackmen. Councilman Cahn said yesterday that the present ordinance regulating hackmen and expressmen might possibly be amended to overcome certain complaints that had been made against it.

This is the first time in years that an effort has been made to regulate that category," said Mr. Cahn. "The ordinance, generally speaking, is working all right, but needs a few changes. We expect expressmen and hackmen to be reasonable in their demands and not indulge in too many selfish mouthings, or else the first thing they know, we will repeal the present form of regulation and pass a cast iron measure, putting them all in one locality and not allow them to scatter over the city so much. The must be more reasonable. Fruit vendors pay a higher license to the city than either expressmen or hackmen. Locality is everything to fruit vendors. In view of the amount they pay for privileges, they are entitled to due consideration in preference to expressmen. I hope that existing complaints can be amicably adjusted by an amended ordinance, which will soon be presented to the city."

Only \$20.00 to 'Frisco via the Burlington. Removed. The military department with Mrs. J. Benson has been removed to 315 South 15th street, Granite block. MISS DACY.
